Earth Day - April 22nd

On Tuesday April 22nd, 1350-1360 René-Lévesque Ouest will once again participate in Earth Day with its E-Waste Recycling drive. Your participation in the last three years has helped make this event a success, as 4 tons of waste were collected and therefore diverted from landfills. We hope Earth Day 2014 will be a success once again.

Recycling

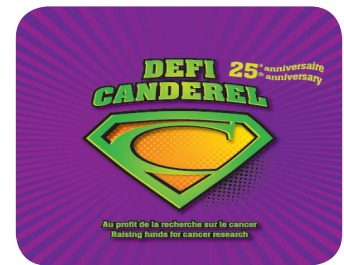

In addition to our office recycling program for paper, cardboard, glass, aluminum and plastic, 1350-1360 René-Lévesque Ouest also recycles electronic waste, batteries fluorescent lamps and organic waste. Together, these measures have resulted in the following achievements in waste management for 2013:

- 13 tons of organic materials composted;
- 900 kg of electronic waste recycled;
- 64 tons of recycled office waste.
